

Gauteng Radio Controlled Laser

Next Meet

Pretoria Sailing Club

Saturday 12th February 2011

14-30

Howards Folly

I know I am really wasting my time sending this reminder out as all of you have now marked your calendar with the second Saturday of every month and have already started charging those batteries in anticipation of a fantastic afternoons sailing. This will be the second of the Summer Series the first was poorly attended with only three boats turning up for the racing. I am not sure what is worse, those that don't respond at all or those that do respond then don't turn up. Your faithful bridge officer Dill Somebody was convinced it would be worthwhile as we had had so many positives only to find they were not sincere. Thanks to those who let us know they would be unable to attend hope you can make it this time.

We have a bonus this weekend as it is the Valentines time of the year; so the club are having a special evening, see the attachment. At the last Valentines dinner the RCL's dominated the evening by decorating a special table and were the largest class there.

Let's do it again, a good afternoons sailing followed by a special social evening, it really was great fun. Phone those RSVPs through now or just e-mail me, waiting in anticipation.

This could be a double whammy for the RCL class but that will be a surprise.

*Radio Controlled Laser
Valentine's dinner*

Saturday 12 February 2011 at 18.30

R50 for adults

R30 for children
