What You have All Been Waiting
For

Yes, at last we are there and if last year was anything to go by this New Year is going to be phenomenal with so many events and things to look forward to, let us all be prepared to really make the non RCL sailors really jealous of all the fun we are going to create.

First Meet for 2011

22nd January

Howards Folly

Pretoria Sailing Club

14-00 Hrs

This falls into the plan of using Saturday for the Summer season and complies with our now proven system of scheduling every second Saturday of the month, the 22nd is the fourth

Saturday, we didn't think there would be many takers for the second Saturday due to the holidays, too late anyway. Start preparing now, dust off the batteries not forgetting to charge them polish the hull, air the sails and be there. We have lots of new keen members ready to learn from the specialists, everybody can learn from all that attend. See you there.

Other News Interests

Our O/S members are still in touch, northern hemisphere suffering from cold while trying to pull caravans up hills on Christmas Eve. Oz seems to be getting as much rain as we have had, see photos of the Vaal area, unfortunately Oz is a little more disastrous, Arthur & Elrae are in the thick of it; fortunately just above the high water line, check the following link taken not far from where they live

<http://www.youtube.com/watch?v=kYUpkPTcqPY&feature=youtu.be> and see photos from the Noah Roffe house all very scary.

Lots More I could give you

Anybody interested

Let me Know.

Happy New Year to you ALL

John Wright RCL89
