

Congratulations to Sail Africa for making it to the next round of the Murray & Roberts Jack Cheetham Award.

They will making their final presentation at the end of September and we wish them well in this round!

About the Jack Cheetham Award:

The Jack Cheetham Memorial Award was initiated by Murray & Roberts 34 years ago, in conjunction with the Johannesburg Sportsman's Club and in recognition of the special qualities of Jack Cheetham, a former director of the company and the inspirational captain of the South African cricket team in the 1950s who was able to instil in young people the belief that they could win.

The awards are now undertaken in partnership with the South African Sports Confederation and Olympic Committee (SASCOC). The award targets sports development projects, focusing on individuals or teams that have the potential to be champions.
